Charis,

Sorry for the delayed response as I misplaced this in my inbox and ran across it today in trying to make sure I was keeping up on emails that required my action.

Given the language in WAQSR Chapter 8, Section 3 (c)(iii)(D) "Actions which implement a decision to conduct or carry out a conforming program such as prescribed burning actions which are consistent with a conforming land management plan." it implies to me much more that following a prescribed burn management program as it specifically lists "a conforming land management plan". As such, I cannot say that following the State's Smoke Management Program is sufficient to say that prescribed burning actions are exempt.

I would suggest looking into what other BLM is doing elsewhere in respect to General Conformity for prescribed fire in nonattainment areas and then we can further discuss.
